

The Ultimate Book Keeping tool for any Broker and Loaning Company.

This software is designed for loan companies to keep track of commissions payable to them from the Aggregator.

The Aggregator emails each Member a Commission Register as a .csv file. This register may also be available for download off the Aggregators' website to be saved to your computer.

Steps available in the CRS Program

- Import the file from the emailed .csv file or the downloaded file from the Aggregator.
- View Loans & Commissions – view the details that have been imported into CRS.
- View Commissions – a more detailed view of commissions received against loans.
- Print Loans & Commissions – print commissions received up to the date specified.
- Commissions Summary – print a list of missing commissions.
- Employees & Security – set up of user access.

Upon opening the CRS data file and entering your username and password, the following screen will appear

Your company logo will be placed here upon purchase.
