Introducing the most effective way to administer & track jobs for Tradesmen and Contractors.

ContractIT offers a new and efficient way to administer, track and direct your tradesmen/contractors from job to job with only a few clicks of a button. Book jobs and send an email to your tradesman letting them know to log onto the software and print out the job sheet and site details.

Features include:

- Direct link from your office to your contractor / tradesman.
- Handle all of your tradesman or contractors, from one site.
- Track jobs by contractor and/or dates.
- Keep your tradesman up to date with job developments.
- Detailed job sheets.
- Arrange multiple tradesmen for one site on separate dates.
- Tradesman privacy, allowing the tradesman / contractor to view only their own job details.
- Colour coded calendar for Quick glance view of holidays, tradesman availability and jobs both completed and upcoming
